CONTENTS OF VOLUME 65

NUMBER 1

Ophitic Texture and Basaltic Crystallization. Frederick Walker 1

The Effects of H_2O in Silicate Systems. G. J. Wasserburg 15

Description and Origin of Stone Layers in Soils of the Southeastern States. E. J. Parizek and J. F. Woodruff 24

The Effect of Solvent Motion on Limestone Solution. Clifford A. Kaye 35

Cenozoic Strata on the Southwestern Osage Plains of Texas. Dewitt C. Van Siclen 47

Diffusion of Chemical Elements in Some Naturally Occurring Silicate Inclusions. Henry H. Woodard 61

Origin and Significance of Breccias along Northwestern Side of Lake Champlain. D. S. Stone 85

Geological Notes

New Technique for Three-dimensional Fabric Analysis of Till and Englacial Debris Containing Particles from 3 to 40 Mm. in Size. P. W. Harrison 98

Armored Till Balls in the Pleistocene Outwash of Southeastern Michigan. George W. Leney and Arax T. Leney 105

Late Stylolites. Paul Herbert, Jr., and Robert S. Young 107

The Cary-Mankato-Valders Problem. M. M. Leighton 108

Errata 111

Reviews 112

NUMBER 2

Studies of Zircon Types in Ceylon Pre-Cambrian Complex. Piyadasa W. Vitanage . 117

Geological Tests of the Varve and Radiocarbon Chronologies. Ernst Antevs . . 129

Paired River Terraces and Pleistocene Glaciation. James Harrison Quinn . . . 149

Wall-Rock Alteration in the Broken Hills Range, Nevada. Charles J. Vitaliano . 167

The Association of Strongly Polarizing Cations with Weakly Polarizing Cations as a Major Influence in Element Distribution, Mineral Composition, and Crystal Growth. George W. DeVore 178

Catalogue of Localities of Permian and Triassic Terrestrial Vertebrates of the Territories of the U.S.S.R. Everett C. Olson 196

Reviews 227

Errata 229

NUMBER 3

SOLE MARKINGS OF GRADED GRAYWACKE BEDS. Ph. H. Kuenen 231

MULTICYCLIC STREAMS AND THE EQUILIBRIUM THEORY OF GRADE. W. E. H. Culling . . 259

A CLAY-TILL FABRIC: ITS CHARACTER AND ORIGIN. P. W. Harrison 275

SIZE-FREQUENCY DISTRIBUTIONS IN SAMPLES OF EXTINCT ORGANISMS. Everett C. Olson . 309

INTRODUCTORY STUDIES OF HIGH-PRESSURE POLYMORPHISM TO 24,000 BARS BY X-RAY DIFFRACTION WITH SOME COMMENTS ON CALCITE II. John C. Jamieson 334

REVIEWS 344

NUMBER 4

THERMODYNAMIC BEHAVIOR OF QUARTZ AND OTHER FORMS OF SILICA IN PURE WATER AT ELEVATED TEMPERATURES AND PRESSURES WITH CONCLUSIONS ON THEIR MECHANISM OF SOLUTION. Rudolf Mosebach 347

ON THE ORIGIN OF SEDIMENTARY ARAGONITE NEEDLES OF THE GREAT BAHAMA BANK. H. A. Lowenstam and S. Epstein 364

THE COLUMBUS LIMESTONE. Clinton R. Stauffer 376

THE ORIENTATION OF SAND GRAINS UNDER CONDITIONS OF "UNIDIRECTIONAL" FLUID FLOW. 1. THEORY AND EXPERIMENT. Gene A. Rusnak 384

ON THE POSTGLACIAL HISTORY OF THE DEVILS LAKE REGION, NORTH DAKOTA. S. Aronow 410

GEOLOGICAL NOTES

GRAPHICAL DETERMINATION OF THE DIP IN DEFORMED AND CLEAVED SEDIMENTARY ROCKS. W. G. Woolnough and W. N. Benson 428

SUBMARINE TOPOGRAPHY OF EASTERN CHANNEL, GULF OF MAINE. Shannon R. Torphy and John M. Zeigler 433

PREGLACIAL MISSOURI RIVER IN SASKATCHEWAN. W. A. Meneley, E. A. Christiansen, and W. O. Kupsch 441

COMPARISON OF CLAY FROM THE CONTINENTAL SHELF OFF LONG ISLAND WITH THE GARDINERS CLAY. William D. Athearn 448

NUMBER 5

EQUILIBRIUM STATES IN MULTICYCLIC STREAMS AND THE ANALYSIS OF RIVER-TERRACE PROFILES. W. E. H. Culling 451

PHASE RELATIONS OF POTASH FELDSPAR IN METAMORPHISM. K. S. Heier 468

THE RELATIONSHIP BETWEEN PALEOTEMPERATURE AND CARBONATE CONTENT IN A DEEP-SEA CORE. Ralph Yalkovsky 480

THE AGE RELATION AND ORIGIN OF COMMON SUDBURY BRECCIA. E. C. Speers 497

COMPLEX NEPHELINE-KALSILITE PHENOCRYSTS IN KABFUMU LAVA, NYIRAGONGO AREA, NORTH KIVU IN BELGIAN CONGO. Th. G. Sahama 515

Experiments on the Burial of Shells. Ralph Gordon Johnson 527

Geological Notes

Striated Surfaces on the Upper Parts of Cirque Headwalls. Wakefield Dort, Jr. 536

Two Significant New Exposures of Pleistocene Deposits along the Ohio River Valley in Kentucky. Louis L. Ray 542

Deformation by Ice Push of Lithified Sediments in South-central Iowa. Paul R. Lamerson and Louis F. Dellwig 546

A Note on Stereographic Analysis of Bedding Planes with Special Reference to Folding in the Isle of Wight, England. E. H. Timothy Whitten 551

Discussion

Tubular Structures in Fall River (Dakota) Sandstone—A Discussion. Daniel R. Shawe 557

Ophitic Texture and Basaltic Crystallization. R. H. Clark 558

Errata 559

Reviews 560

NUMBER 6

Upper Huronian Sedimentation in a Portion of the Marquette Trough, Michigan. D. H. Hase 561

Structural Geometry of Dalradian Rocks at Loch Leven, Scottish Highlands. L. E. Weiss and D. B McIntyre 575

Weathering Studies. 1. New Data on Vermiculite. Rustum Roy and L. A. Romo . . 603

Tertiary Reef and Associated Limestone Facies from Louisiana and Guam. McLain J. Forman and Seymour O. Schlanger 611

Geological Notes

Climate and Morphometry. Richard J. Chorley 628

Structure of the Westport Concordant Pluton in the Grenville, Ontario. Hugh R. Wynne-Edwards 639

Relative Rates of Loess Deposition in Nebraska. Larry Frankel 649

A Clarification of the Definition and Classification of Soil Creep. E. J. Parizek and J. F. Woodruff 653

Reviews 657

Announcements 658

Index 659

INDEX TO VOLUME 65

Age relation and origin of common Sudbury breccia, The (E. C. Speers), 497

Agricola, Georgius. De natura fossilium (Textbook of mineralogy). Translated from the 1st Latin ed., 1546, by Mark Chance Bandy and Jean A. Bandy. Review by George W. White, 113.

Antarctica in the Geophysical Year. Review by P. W. Harrison, 657

Antevs, Ernst. *Geological tests of the varve and radiocarbon chronologies*, 129

Armored till balls in the Pleistocene outwash of southeastern Michigan (George W. Leney and Arax T. Leney), 105

Aronow, S. *On the postglacial history of the Devils Lake region, North Dakota*, 410

Association of strongly polarizing cations with weakly polarizing cations as a major influence in element distribution, mineral composition, and crystal growth (George W. DeVore), 178

Athearn, William D. *Comparison of clay from the Continental Shelf off Long Island with the Gardiners clay*, 448

Bandy, Mark Chance, and Jean A. Bandy. Translations from the 1st Latin ed., 1546. De natura fossilium (Textbook of mineralogy). By Georgius Agricola. Review by George W. White, 113.

Basaltic crystallization, Ophitic texture and (Frederick Walker), 1

Benson, W. N., and W. G. Woolnough. *Graphical determination of the dip in deformed and cleaved sedimentary rocks*, 428

Bokman, John. Review of: Geology of the core of Ouachita Mountains of Oklahoma. By William D. Pitt, 114

Breccias along northwestern side of Lake Champlain, Origin and significance of (D. S. Stone), 85

Brindley, G. W. Review of: Elementary crystallography: an introduction to the fundamental geometrical features of crystals. By M. J. Buerger, 227.

Buerger, M. J. Elementary crystallography: an introduction to the fundamental geometrical features of crystals. Review by G. W. Brindley, 227

Calcite II, Introductory studies of high-pressure polymorphism to 24,000 bars by X-ray diffraction with some comments on (John C. Jamieson), 334

Carbonate content in a deep-sea core, The relationship between paleotemperature and (Ralph Yalkovsky), 480

Cary-Mankato-Valders problem, The (M. M. Leighton), 108

Catalogue of localities of Permian and Triassic terrestrial vertebrates of the territories of the U.S.S.R. (Everett C. Olson), 196

Cations as a major influence in element distribution, mineral composition, and crystal growth, The association of strongly polarizing cations with weakly polarizing (George W. DeVore), 178

Cenozoic strata on the southwestern Osage Plains of Texas (Dewitt C. Van Siclen), 47

Ceylon pre-Cambrian complex, Studies of zircon types (Piyadasa W. Vitanage), 117

Chemical elements in some naturally occurring silicate inclusions, Diffusion of (Henry H. Woodard), 61

Chorley, Richard J. *Climate and morphometry*, 628

Christiansen, E. A., W. A. Meneley, and W. O. Kupsch. *Preglacial Missouri River in Saskatchewan*, 441

Cirque headwalls, Striated surfaces on the upper parts of (Wakefield Dort, Jr.), 536

Clarification of the definition and classification of soil creep, A (E. J. Parizek and J. F. Woodruff), 653

Clark, R. H. *Ophitic texture and basaltic crystallization—a discussion*, 558

Clay from the Continental Shelf off Long Island with the Gardiners clay, Comparison of (William D. Athearn), 448

Clays and clay minerals: Proceedings of the third national conference on clays and clay minerals. Edited by W. O. Milligan. Review by A. J. Frueh, Jr., 227

Clay-till fabric, A: its character and origin (P. W. Harrison), 275

Climate and morphometry (Richard J. Chorley), 628

Columbus limestone, The (Clinton R. Stauffer), 376

Comparison of clay from the Continental Shelf off Long Island with the Gardiners clay (William D. Athearn), 448

Complex nepheline-kalsilite phenocrysts in Kabfumu lava, Nyiragongo area, North Kivu in Belgian Congo (Th. G. Sahama), 515

Culling, W. E. H. *Equilibrium states in multicyclic streams and the analysis of river-terrace profiles*, 451

Multicyclic streams and the equilibrium theory of grade, 259

Dalradian rocks at Loch Leven, Scottish Highlands, Structural geometry of (L. E. Weiss and D. B. McIntyre), 575

De natura fossilium (Textbook of mineralogy). By Georgius Agricola. Translated from the 1st Latin ed., 1546, by Mark Chance Bandy and Jean A. Bandy. Review by George W. White, 113

Deep-sea core, The relationship between paleotemperature and carbonate content in a (Ralph Yalkovsky), 480
Deformation by ice push of lithified sediments in south-central Iowa (Paul R. Lamerson and Louis F. Dellwig), 546
Dellwig, Louis F., and Paul R. Lamerson. *Deformation by ice push of lithified sediments in south-central Iowa*, 546
Description and origin of stone layers in soils of the southeastern states (E. J. Parizek and J. F. Woodruff), 24
DeVore, George W. *The association of strongly polarizing cations with weakly polarising cations as a major influence in element distribution, mineral composition, and crystal growth*, 178
Diffusion of chemical elements in some naturally occurring silicate inclusions (Henry H. Woodard), 61
Dort, Wakefield, Jr. *Striated surfaces on the upper parts of cirque headwalls*, 536

Effect of solvent motion on limestone solution (Clifford A. Kaye), 35
Effects of H_2O in silicate systems, The (G. J. Wasserburg), 15
Elementary crystallography: an introduction to the fundamental geometrical features of crystals. By M. J. Buerger. Review by G. W. Brindley, 227
Epstein, S., and H. A. Lowenstam. *On the origin of sedimentary aragonite needles of the Great Bahama Bank*, 364
Equilibrium states in multicyclic streams and the analysis of river-terrace profiles (W. E. H. Culling), 451
theory of grade, Multicyclic streams and the (W. E. H. Culling), 259
Experiments on the burial of shells (Ralph Gordon Johnson), 527

Fabric analysis of till and englacial debris containing particles from 3 to 40 mm. in size, New technique for three-dimensional (P. W. Harrison), 98
Fall River (Dakota) sandstone—a discussion, Tubular structures in (Daniel R. Shawe), 557
Forman, McLain J., and Seymour O. Schlanger. *Tertiary reef and associated limestone facies from Louisiana and Guam*, 611
Frankel, Larry. *Relative rates of loess deposition in Nebraska*, 649
Frueh, A. J., Jr. Review of: An introduction to crystallography. By F. C. Phillips, 227
Review of: Clays and clay minerals: Proceedings of the third national conference on clays and clay minerals. Edited by W. O. Milligan, 227

Geographical history of the Netherlands. Edited by A. J. Pannekoek. Review by J. Marvin Weller, 228
Geological tests of the varve and radiocarbon chronologies (Ernst Antevs), 129
Geology of the core of the Ouachita Mountains of Oklahoma. By William D. Pitt. Review by John Bokman, 114
Graphical determination of the dip in deformed and cleaved sedimentary rocks (W. G. Woolnough and W. N. Benson), 428

Harrison, P. W. *A clay-till fabric: its character and origin*, 275
New technique for three-dimensional fabric analysis of till and englacial debris containing particles from 3 to 40 mm. in size, 98
Review of: Antarctica in the Geophysical Year, 657
Hase, D. H. *Upper Huronian sedimentation in a portion of the Marquette Trough, Michigan*, 561
Heier, K. S. *Phase relations of potash feldspar in metamorphism*, 468
Herbert, Paul, Jr., and Robert S. Young. *Late stylolites*, 107
High-pressure polymorphism to 24,000 bars by X-ray diffraction with some comments on calcite II, Introductory studies of (John C. Jamieson), 334

Ice push of lithified sediments in south-central Iowa, Deformation by (Paul R. Lamerson and Louis F. Dellwig), 546
Index of Michigan geology, An. By Helen M. Martin and Muriel T. Straight. Review by Carl E. Dutton
Introduction to crystallography, An. By F. C. Phillips. Review by A. J. Frueh, Jr., 227
Introductory studies of high-pressure polymorphism to 24,000 bars by X-ray diffraction with some comments on calcite II (John C. Jamieson), 334

Jamieson, John C. *Introductory studies of high-pressure polymorphism to 24,000 bars by X-ray diffraction with some comments on calcite II*, 334
Johnson, Ralph Gordon. *Experiments on the burial of shells*, 527

Kaye, Clifford A. *The effect of solvent motion on limestone solution*, 35
Kuenen, Ph. H. *Sole markings of graded graywacke beds*, 231
Kupsch, W. O., W. A. Meneley, and E. A. Christiansen. *Preglacial Missouri River in Saskatchewan*, 441

Lamerson, Paul R., and Louis F. Dellwig. *Deformation by ice push of lithified sediments in south-central Iowa*, 546
Late stylolites (Paul Herbert, Jr., and Robert S. Young), 107

Leighton M. M. *The Cary-Mankato-Valders problem*, 108
Leney, Arax T., and George W. Leney. *Armored till balls in the Pleistocene outwash of southeastern Michigan*, 105
George W., and Arax T. Leney, *Armored till balls in the Pleistocene outwash of southeastern Michigan*, 105
Loess deposition in Nebraska, Relative rates of (Larry Frankel), 649
Lowenstam, H. A., and S. Epstein. *On the origin of sedimentary aragonite needles of the Great Bahama Bank*, 364

McIntyre, D. B., and L. E. Weiss. *Structural geometry of Dalradian rocks at Loch Leven, Scottish Highlands*, 575
Martin, Helen M., and Muriel T. Straight. An Index of Michigan geology. Review by Carl E. Dutton
Meneley, W. A., E. A. Christiansen, and W. O. Kupsch. *Preglacial Missouri River in Saskatchewan*, 441
Miller, V. C. A quantitative geomorphic study of drainage basin characteristics in the Clinch Mountain area, Virginia and Tennessee. Review by Paul Edwin Potter, 112
Milligan, W. O. Edited: Clays and clay minerals: Proceedings of the third national conference on clays and clay minerals. Review by A. J. Frueh, Jr., 227
Missouri River in Saskatchewan, Preglacial (W. A. Meneley, E. A. Christiansen, and W. O. Kupsch), 441
Morphometry, Climate and (Richard J. Chorley), 628
Multicyclic streams and the analysis of river-terrace profiles, Equilibrium states in (W. E. H. Culling), 451
streams and the equilibrium theory of grade (W. E. H. Culling), 259

Nevada, Wall-rock alteration in the Broken Hills range (Charles J. Vitaliano), 167
New technique for three-dimensional fabric analysis of till and englacial debris containing particles from 3 to 40 mm. in size (P. W. Harrison), 98
Note on stereographic analysis of bedding plans with special reference to folding in the Isle of Wight, England, A (E. H. Timothy Whitten), 551

Ohio River Valley in Kentucky, Two significance new exposures of Pleistocene deposits along the (Louis L. Ray), 542
Olson, Everett C. *Catalogue of localities of Permian and Triassic terrestrial vertebrates of the territories of the U.S.S.R.*, 196
Size-frequency distributions in samples of extinct organisms, 309
On the origin of sedimentary aragonite needles of the Great Bahama Bank (H. A. Lowenstam and S. Epstein), 364
On the postglacial history of the Devils Lake region, North Dakota (S. Aronow), 410
Ophitic texture and basaltic crystallization (Frederick Walker), 1
—*a discussion* (R. H. Clark), 558
Orientation of sand grains under conditions of "unidirectional" fluid flow. 1. Theory and experiment, The (Gene A. Rusnak), 384
Origin and significance of breccias along northwestern side of Lake Champlain (D. S. Stone), 85

Paired river terraces and Pleistocene glaciation (James Harrison Quinn), 149
Paleotemperature and carbonate content in a deep-sea core, The relationship between (Ralph Yalkovsky), 480
Pannekoek, A. J. Edited: Geographical history of the Netherlands. Review by J. Marvin Weller, 228
Parizek, E. J., and J. F. Woodruff. *A clarification of the definition and classification of soil creep*, 653
Description and origin of stone layers in soils of the southeastern states, 24
Permian and Triassic terrestrial vertebrates of the territories of the U.S.S.R., Catalogue of localities of (Everett C. Olson), 196
Phase relations of potash feldspar in metamorphism (K. S. Heier), 468
Phenocrysts in Kabfumu lava, Nyiragongo area, North Kivu in Belgian Congo, Complex nepheline-kalsilite (Th. G. Sahama), 515
Phillips, F. C. An introduction to crystallography. Review by A. J. Frueh, Jr., 227
Pitt, William D. Geology of the core of the Ouchita Mountains of Oklahoma. Review by John Bokman, 114
Pleistocene deposits along the Ohio River Valley in Kentucky, Two significant new exposures of (Louis L. Ray), 542
glaciation, Paired river terraces and (James Harrison Quinn), 149
outwash of southeastern Michigan, Armored till balls in the (George W. Leney and Arax T. Leney), 105
Potter, Paul Edwin. Review of: A quantitative geomorphic study of drainage basin characteristics in the Clinch Mountain area, Virginia and Tennessee. By V. C. Miller, 112
Pre-Cambrian complex, Studies of zircon types in Ceylon (Piyadasa W. Vitanage), 117
Preglacial Missouri River in Saskatchewan (W. A. Meneley, E. A. Christiansen, and W. O. Kupsch), 441

Quantitative geomorphic study of drainage basin characteristics in the Clinch Mountain area, Virginia and Tennessee, A. By V. C. Miller. Review by Paul Edwin Potter, 112
Quinn, James Harrison. *Paired river terraces and Pleistocene glaciation*, 149

Radiocarbon chronologies, Geological tests of the varve and (Ernst Antevs), 129
Relationship between paleotemperature and carbonate content in a deep-sea core, The (Ralph Yalkovsky), 480
Relative rates of loess deposition in Nebraska (Larry Frankel), 649
River-terrace profiles, Equilibrium states in multicyclic streams and the analysis of (W. E. H. Culling), 451
Romo, L. A., and Rustum Roy. *Weathering studies. 1. New data on vermiculite*, 603
Roy, Rustum, and L. A. Romo. *Weathering studies, 1. New data on vermiculite*, 603
Rusnak, Gene A. *The orientation of sand grains under conditions of "unidirectional" fluid flow. 1. Theory and experiment*, 384

Sahama, Th. G. *Complex nepheline-kalsilite phenocrysts in Kabfumu lava, Nyiragongo area, North Kivu in Belgian Congo*, 515
Sand grains under conditions of "unidirectional" fluid flow. 1. Theory and experiment, The orientation of (Gene A. Rusnak), 384
Sandstone—a discussion, Tubular structures in Fall River (Dakota) (Daniel R. Shawe), 557
Schlanger, Seymour O., and McLain J. Forman. *Tertiary reef and associated limestone facies from Louisiana and Guam*, 611
Sedimentary rocks, Graphical determination of the dip in deformed and cleaved (W. G. Woolnough and W. N. Benson), 428
Sedimentation in a portion of the Marquette Trough, Michigan, Upper Huronian (D. H. Hase), 561
Shawe, Daniel R. *Tubular structures in Fall River (Dakota) sandstone—a discussion*, 557
Silica in pure water at elevated temperatures and pressures with conclusions on their mechanism of solution, Thermodynamic behavior of quartz and other forms of (Rudolf Mosebach), 347
Silicate inclusions, Diffusion of chemical elements in some naturally occurring (Henry H. Woodard), 61
systems, The effects of H_2O in (G. J. Wasserburg), 15
Size-frequency distributions in samples of extinct organisms (Everett C. Olson), 309
Soil creep, A clarification of the definition and classification of (E. J. Parizek and J. F. Woodruff), 653
Sole markings of graded graywacke beds (Ph. H. Kuenen), 231
Southeastern states, Description and origin of stone layers in soils of the (E. J. Parizek and J. F. Woodruff), 24
Southwestern Osage Plains of Texas, Cenozoic strata on the (Dewitt C. Van Siclen), 47
Speers, E. C. *The age relation and origin of common Sudbury breccia*, 497
Stauffer, Clinton R. *The Columbus limestone*, 376
Stereographic analysis of bedding planes with special reference to folding in the Isle of Wight, England, a note on (E. H. Timothy Whitten), 551
Stone, D. S. *Origin and significance of breccias along northwestern side of Lake Champlain*, 85
Stone layers in soils of the southeastern states, Description and origin of (E. J. Parizek and J. F. Woodruff), 24
Straight, Muriel T., and Helen M. Martin. An index of Michigan geology. Review by Carl E. Dutton
